

Current situation

NT Airports is continuing to monitor the COVID-19 situation. We thank you for your ongoing cooperation and understanding during this time. Our priority remains the wellbeing and safety of our staff, contractors, visitors and travellers.

We are actively improving our airport facilities and procedures to ensure our people are protected and to enable appropriate social distancing and hygiene.

It is mandatory for staff and contractors to wear face masks in the terminal. Your safety is our priority and we ask that you please do this as a precaution when visiting the terminal.

Latest advice

There are two active case of COVID-19 in the Northern Territory. It is important that we continue to follow the recommended health and travel advice and avoid becoming complacent.

It is important that we continue to adhere to mandatory work health and safety requirements, particularly the Airside PPE Policy. For more safety information refer to www.darwinairport.com.au/corporate/working-airport-requirements

Changes to restrictions

From 17 July 2020, Territory borders opened to interstate travel.

On arrival, passengers from interstate will need to:

- Complete and print an online *NT border entry form*, which will be made available at coronavirus.nt.gov.au
- Bring the completed *NT border entry form*, photo ID and a pen on the flight
- On arrival, remain seated and await instructions for disembarking the plane
- Passengers will be asked if they have been through a COVID-19 hotspot
- Passengers will then be directed to checkpoints for processing by Northern Territory Department of Health
- Passengers will be asked to sign and submit the *NT border entry form* in front of an authorised Department of Health officer.

Those who have *not* been in a COVID-19 hotspot will be free to collect their baggage and leave.

Passengers who *have* been in a declared COVID-19 hotspot must undergo 14 days mandatory, supervised quarantine in a government facility at their own cost.

We are staying abreast of the rapidly changing environment in all states including Victoria and New South Wales, and we are working closely with the Northern Territory Department of Health and other authorities on protocols that will apply now that borders are open.
