

Weekly update

In this week's update:

- Change to number of active cases in the Northern Territory.

Current situation

NT Airports is continuing to monitor the COVID-19 situation. We thank you for your ongoing cooperation and understanding during this time. Our priority remains the wellbeing and safety of our staff, contractors, visitors and travellers.

We are actively improving our airport facilities and procedures to ensure our people are protected and to enable appropriate social distancing and hygiene.

It is mandatory for staff and contractors to wear face masks in the terminal. Your safety is our priority and we ask that you please do this as a precaution when visiting the terminal. As an added precaution, we strongly encourage all visitors to wear face masks when passing through each of our airports.

Latest advice

There are currently no active cases of COVID-19 in the Northern Territory.

We understand that there is a risk that some people travelling through our terminals may test positive for COVID-19. We do not take this lightly and we have worked to ensure our airports are as safe as possible. If passengers are displaying symptoms or test positive for COVID-19, additional deep cleaning takes place immediately after the event throughout the terminal.

It is mandatory for NT Airports staff and directly appointed contractors to wear a facemask in common areas of the terminal.

Good personal hygiene is everyone's responsibility. Please remember to do the following to help prevent the spread of COVID-19:

- wash your hands frequently with soap and water, before and after eating, and after going to the toilet
- cover your cough and sneeze, dispose of tissues, and use alcohol-based hand sanitiser
- if unwell, avoid contact with others and please stay home
- wipe down and disinfect regularly used shared surfaces
- practise social distancing and keep 1.5 metres apart where possible
- wear a face mask in common areas of the airport terminal
- understand how to self-isolate if you need to.

It is important that we continue to adhere to mandatory work health and safety requirements, particularly the Airside PPE Policy. For more safety information refer to www.darwinairport.com.au/corporate/working-airport-requirements

Changes to restrictions

Territory borders are now open to interstate travel. Victoria and parts of New South Wales are currently declared as hotspots by the Northern Territory Government.

We are staying abreast of the rapidly changing environment in all states, including Victoria and New South Wales, and working closely with the Northern Territory Department of Health on protocols that apply now that borders are open.

On arrival, passengers from interstate will need to complete an online *NT border entry form* which is available at coronavirus.nt.gov.au and present the form to an authorised Department of Health officer.

Those who have *not* been in a COVID-19 hotspot will then be free to collect their baggage and leave.

Passengers who *have* been in a declared COVID-19 hotspot must undergo 14 days mandatory, supervised quarantine in a government facility at their own cost.
